Introduction

The implementation of the Homelessness Reduction Act 2017 has significantly changed the way in which housing authorities are able to respond to those people who are homeless or threatened with homelessness.

Solihull Community Housing and St Basil's Solihull Youth Hub have developed 'Housing Pathways' in collaboration with key partner organisations to ensure that we are effectively delivering the Homelessness Reduction Act, through:

- Designing advice and information services to meet the needs of people within the local area
- Ensuring specified public bodies are aware of their Duty to Refer

The Housing Pathways illustrate the advice, assistance and support that Solihull Community Housing, St Basil's Solihull Youth Hub and other partner organisations are able to provide to those who are homeless or threatened with homelessness, tailored to the needs of the following customer groups:

1. People released from prison or youth detention accommodation
2. Care leavers
3. Former members of the regular armed forces
4. Victims of domestic abuse
5. People leaving hospital
6. People suffering from a mental illness or impairment
7. People using substances

The pathways show multiple approach methods, support provisions and housing options, highlighting that each person's experience of homelessness is different, with individual people seeking help at different stages, with varying levels of support needs, and with various housing options available to them.

Solihull Community Housing and St Basil's Solihull Youth Hub are focused on improving partnerships within the local area. The pathways demonstrate the ways in which we can utilise and develop collaborative working, through the use of the ALERT system and the Duty to Refer, in addition to using a multi-agency approach to provide support, advice and assistance to prevent and relieve homelessness.

The launch of the Housing Pathways through the Solihull Homeless Forum Partnership Event on 2nd March 2020 will ensure that partner agencies are aware of what provisions are available in Solihull and how they can work with Solihull Community Housing and St Basil's Solihull Youth Hub to improve positive outcomes for their service users.

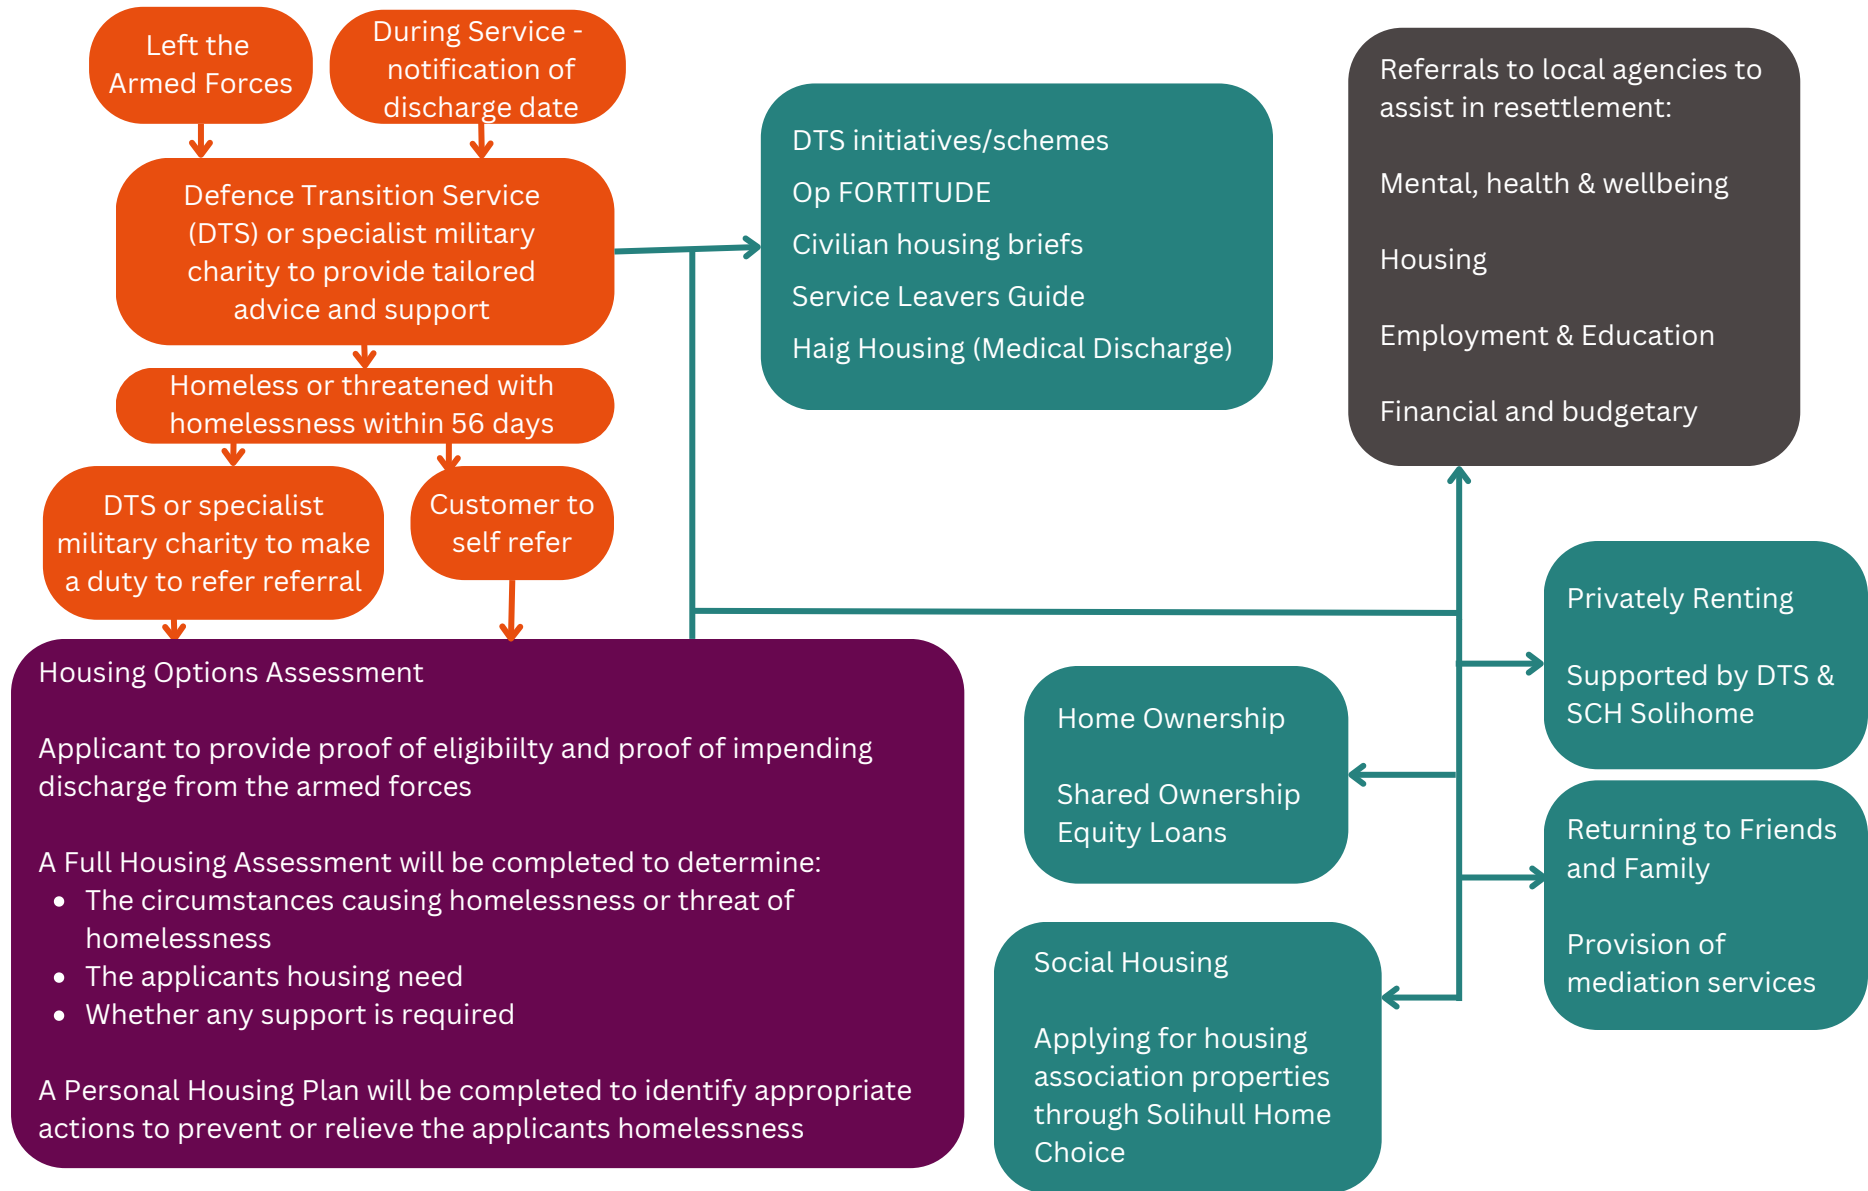

Housing Pathway - People due to be released from prison or youth detention accommodation

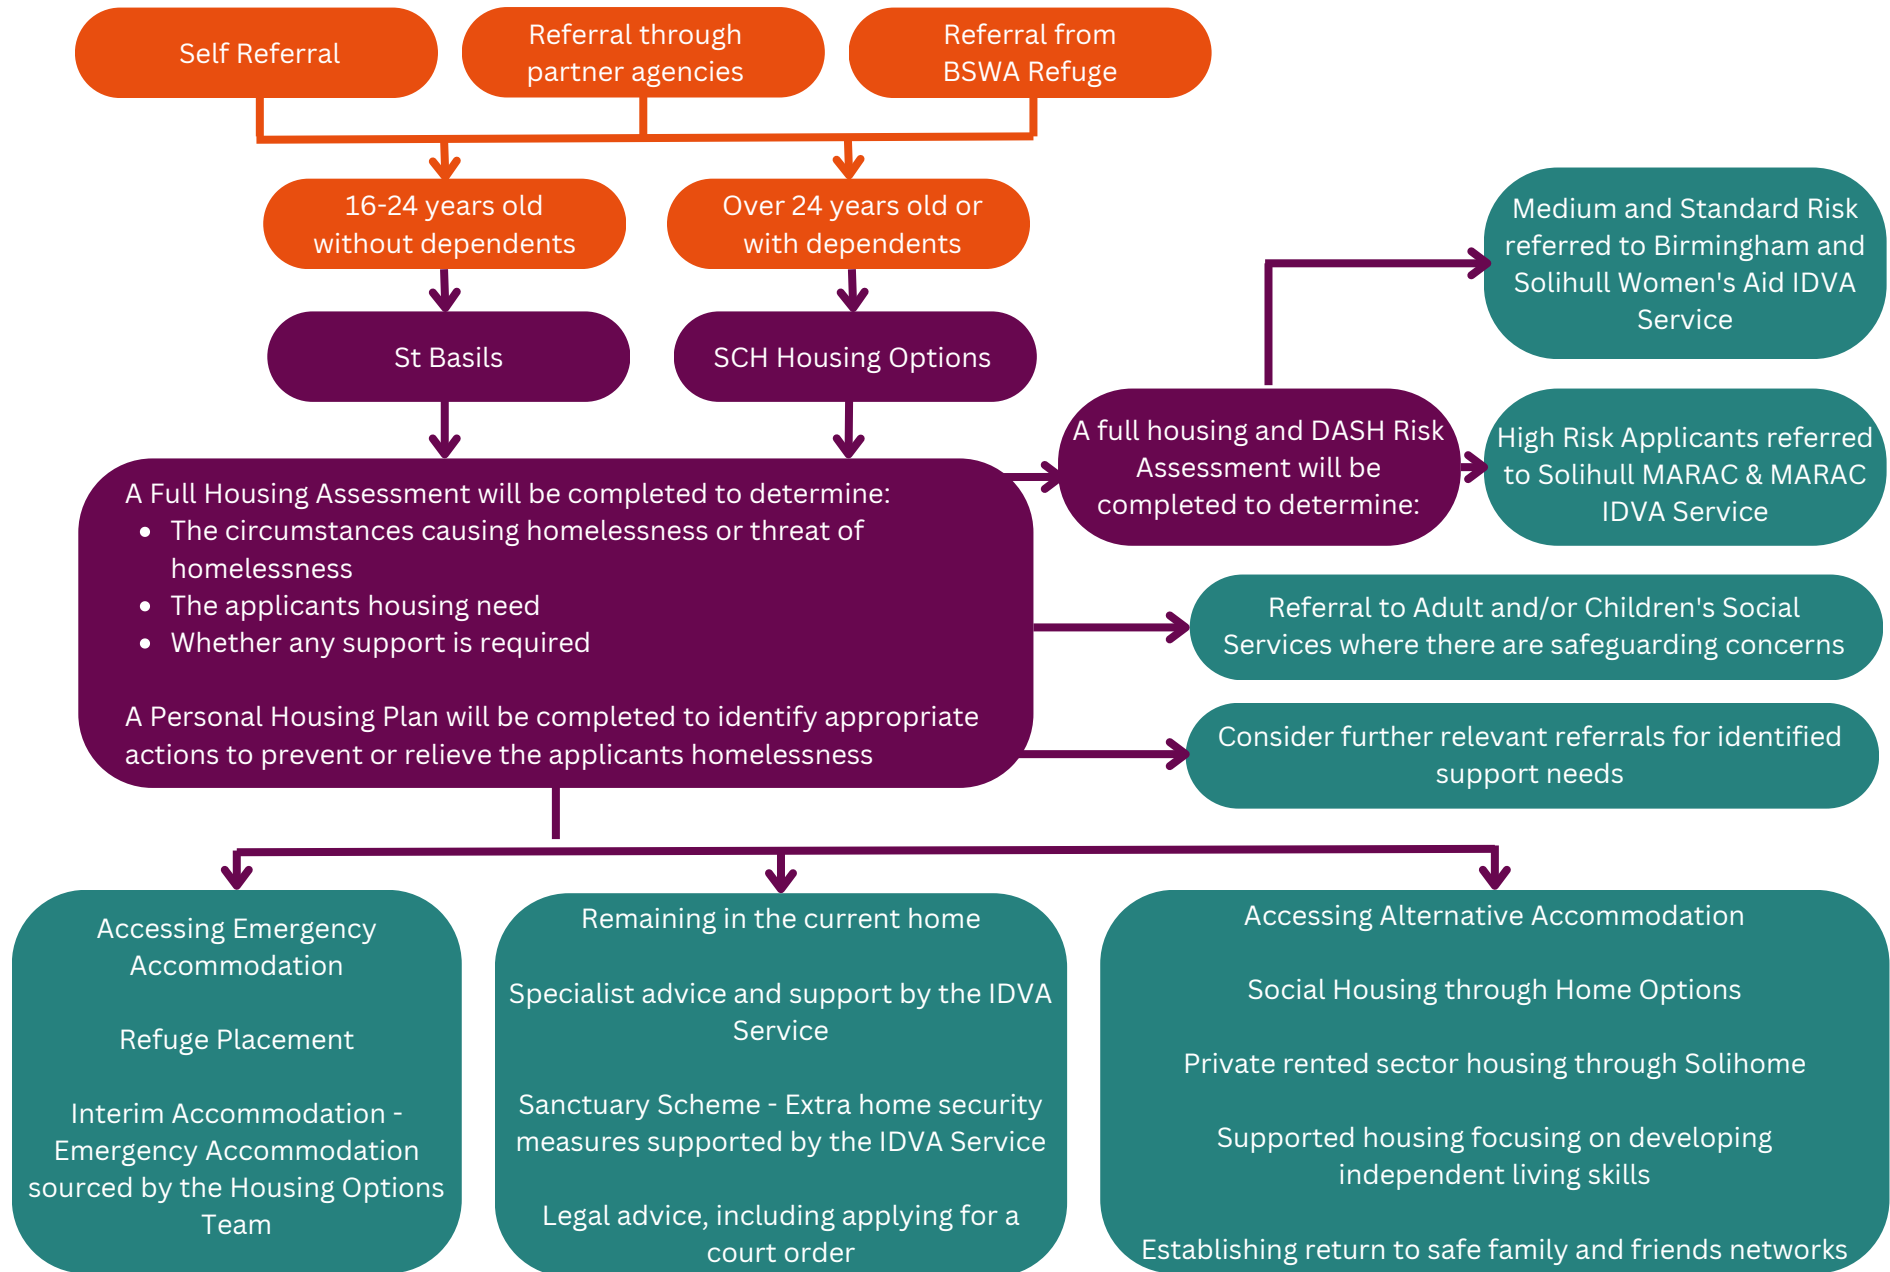

Housing Pathway - Care Leavers (Leaving Care)

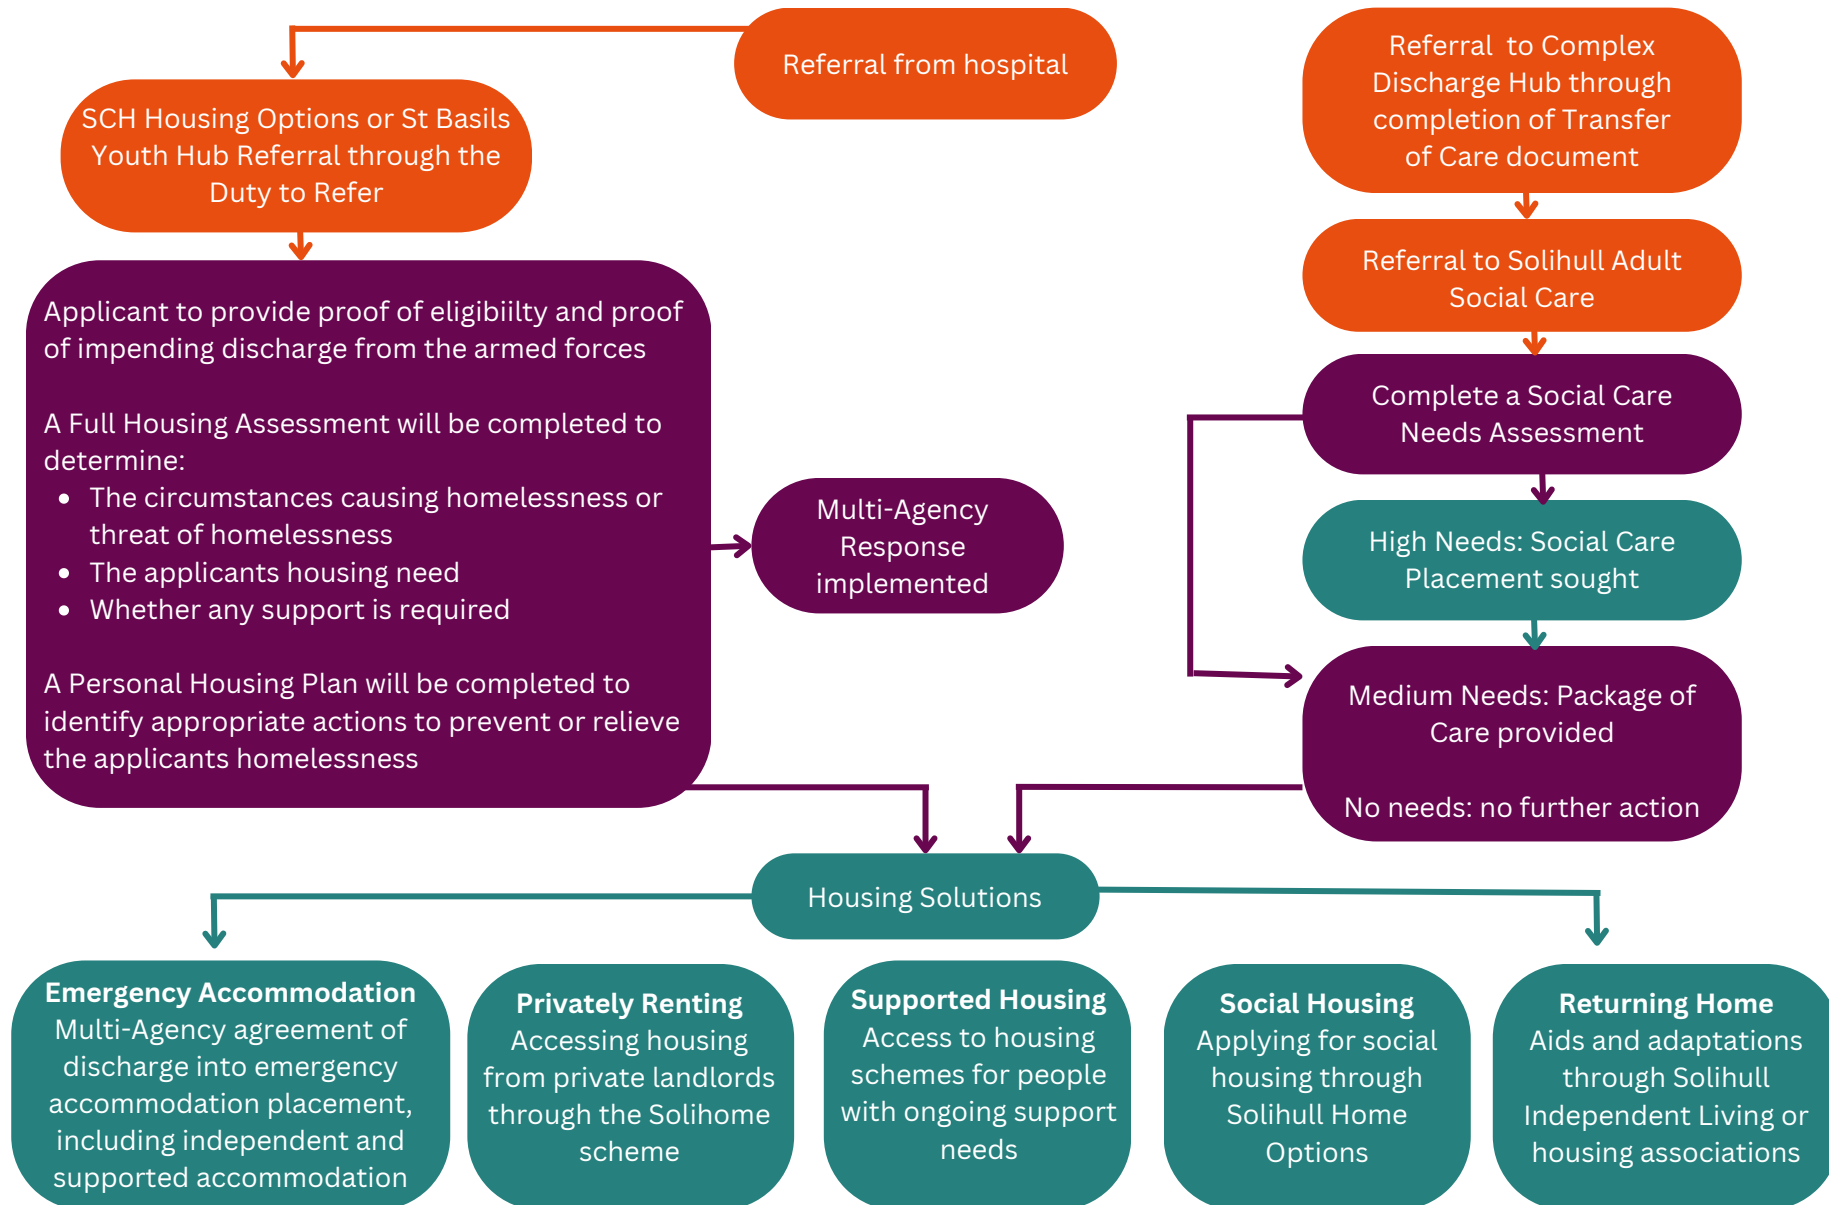

Housing Pathway - People Leaving the UK Armed Forces

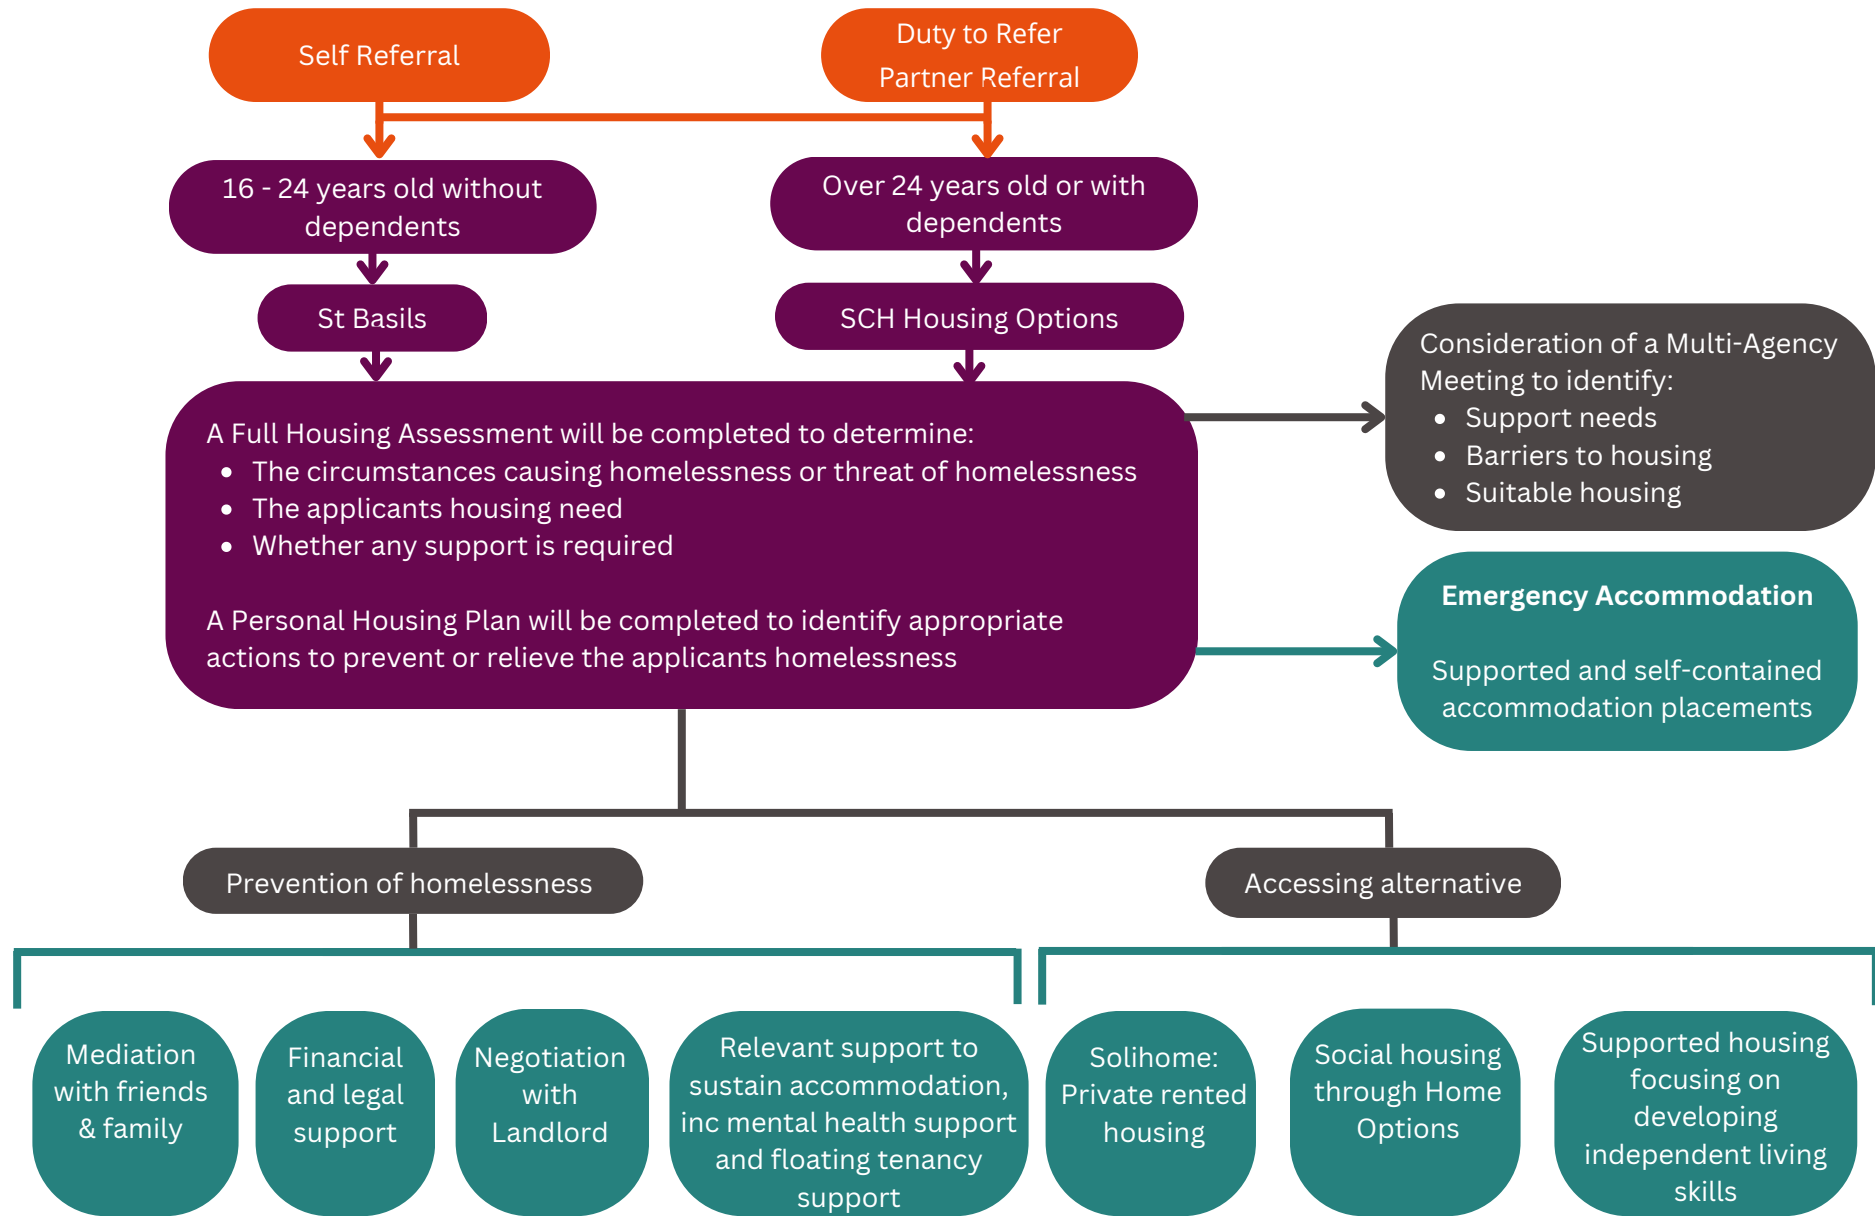

Housing Pathway - Victims of Domestic Abuse

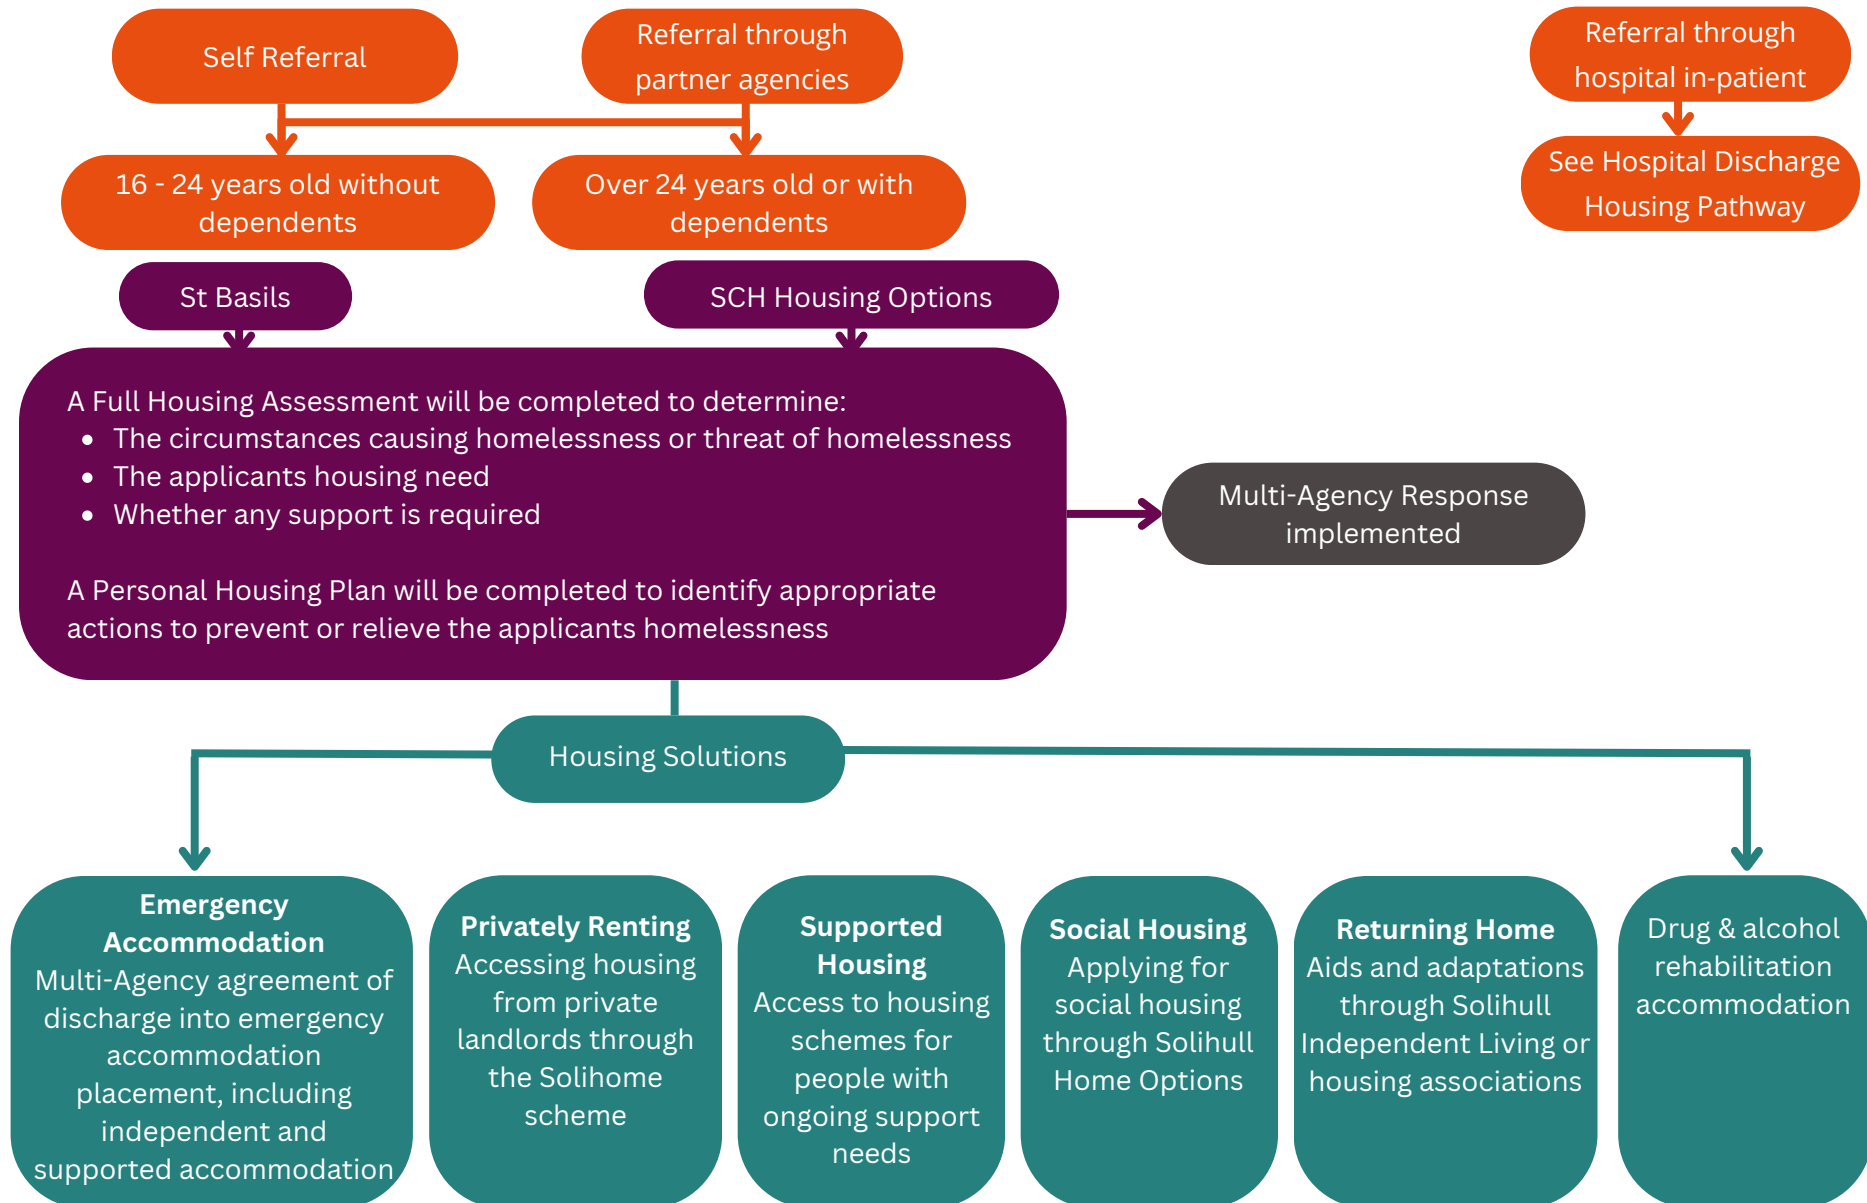

Housing Pathway - People leaving hospital (hospital discharge)

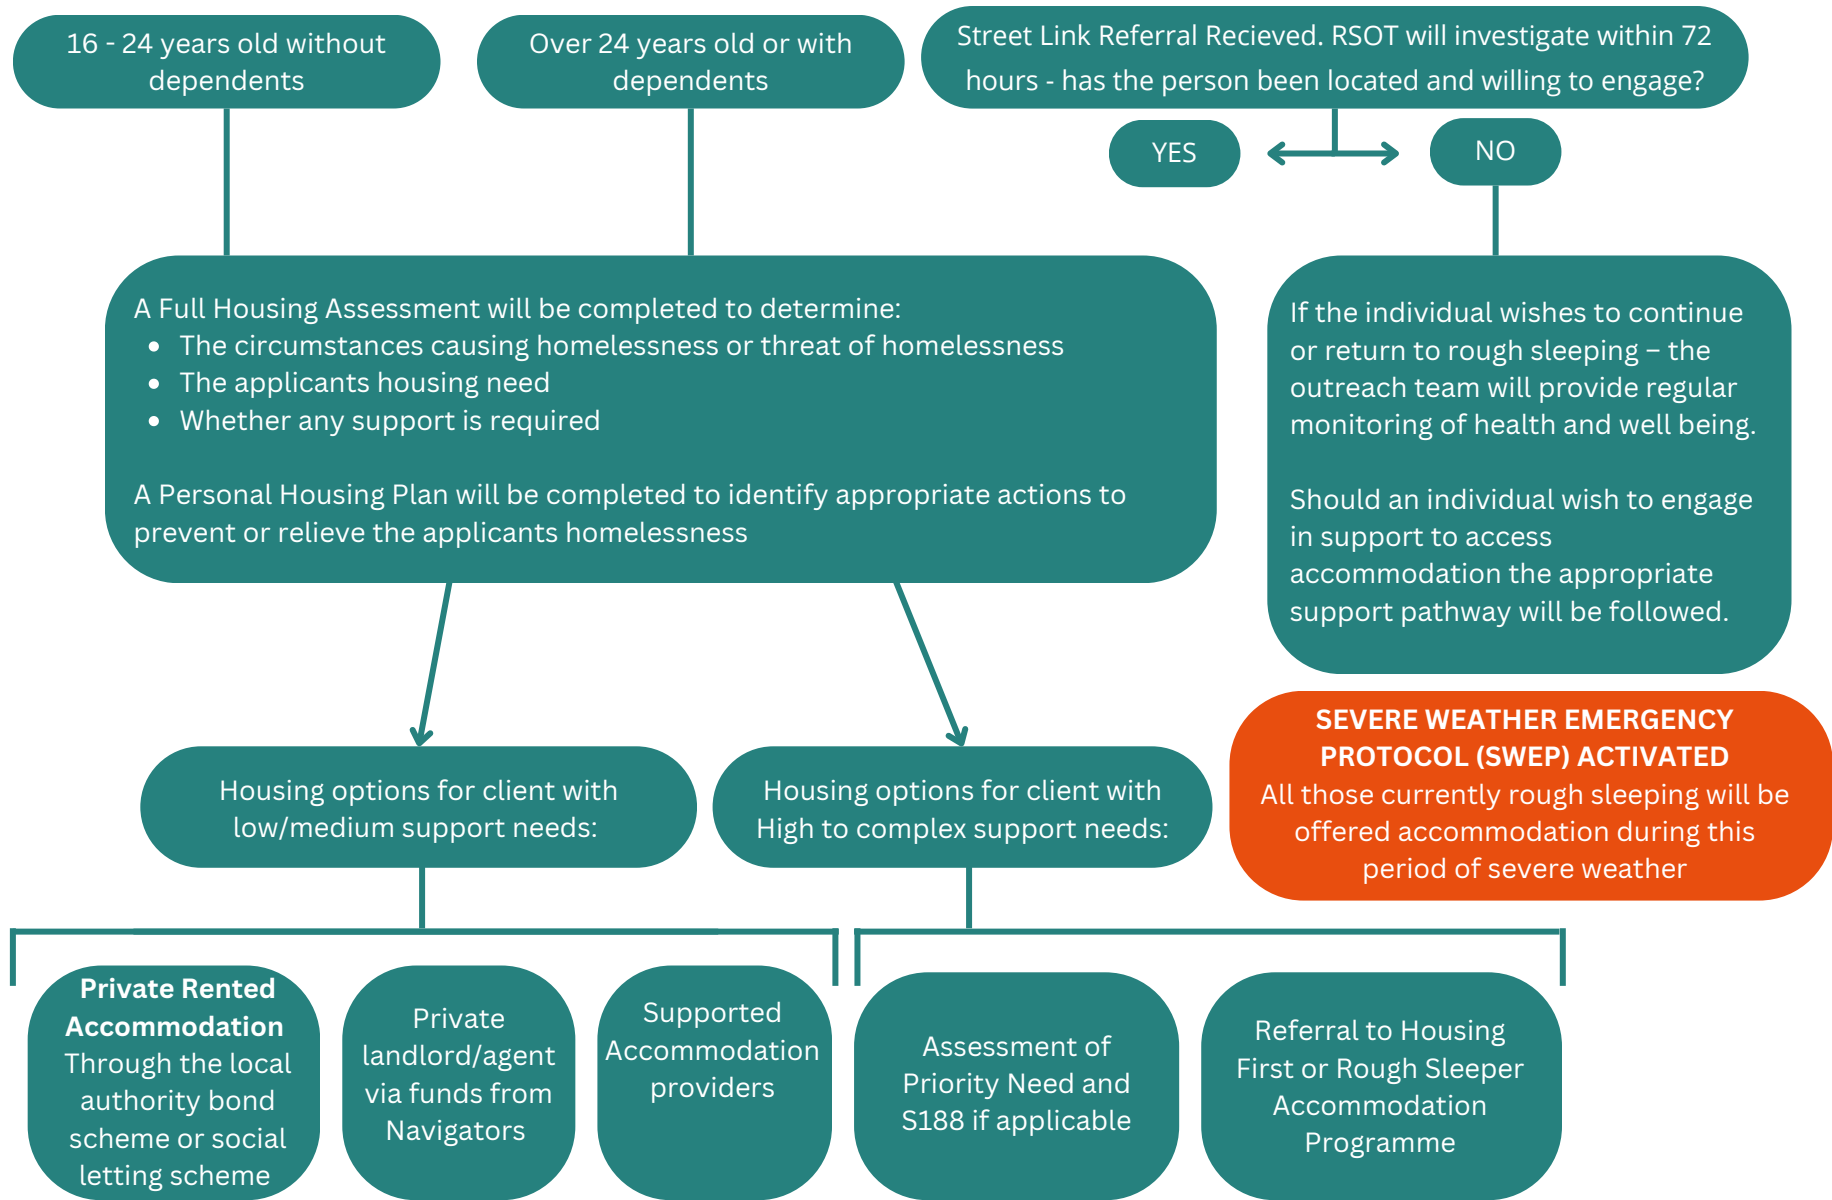

Housing Pathway - People suffering from mental illness or impairment)

Housing Pathway - Substance Misuse

Housing Pathway - Rough Sleepers

ALERT and the Duty to Refer

What is the Duty to Refer?

The Homelessness Reduction Act 2017 introduced a duty on specific public authorities to refer service users who they think may be homeless or threatened with homelessness to a housing authority.

Those who are subject to this duty are:

- Prisons
- Young Offender Institutions
- Secure Training Centres and Secure Colleges
- Youth Offender Teams
- Probation Services
- Job centres
- Social Service Authorities (Adult & Children's)
- Emergency Departments
- Urgent Treatment Centres
- Hospitals providing Inpatient Care
- The Secretary of State for Defence

In addition to these organisations, Solihull Community Housing and St Basil's Solihull Youth Hub accept and encourage referrals from all other partner agencies who are not subject to the duty, but would like to refer service users anyway.

Five Steps to an ALERT referral?

1. Sign up to ALERT at live.housingjigsaw.co.uk/alert/duty-to-refer
2. Enter details of your agency
3. Provide details of the household being referred
4. Complete a consent to share declaration
5. Submit

Requirements of the referral

- The person referring must:
- Have consent of the individual
- Allow the individual to identify which authority they would like to be referred to
- Have consent from the individual to share their contact details with the housing authority

What are the benefits?

- Improved partnership and multi-agency working
- Earlier identification and prevention
- Reduced crisis approaches
- Improved outcomes for those with complex needs
- A reduction in repeat homelessness

Identifying when a referral is required

Sometimes it is difficult to identify when someone is homeless or threatened with homelessness. Factors that would indicate that further questioning about housing circumstances is required are:

- If you think they might be homeless within 56 days
- Problems with debt, particularly mortgage or rent arrears
- Problems with a landlord, including threat of eviction and being served notice to leave
- Being a victim of domestic abuse, other forms of violence, threats or intimidation
- Approaching discharge from hospital, armed forces or release from custody, with no accommodation available
- Having previously been in care, the armed forces or in prison
